# But why target municipalities?

- High value accounts
- Bonding
- Zero Budgeting
- No employee theft insurance
- Have the ability to move money quickly
  - Wire Transfers
  - ACH
- Municipal computers represent a target rich environment for other valuable information

# Education and controls

# Embezzlement – Red Flags

- ✓ Living beyond their means
- ✓ Financial difficulties
- ✓ Unusually close association with vendors or customers
- ✓ Excessive control issues
- ✓ Little vacation taken
- ✓ ... and some times not

# Preventing Embezzlement/Bookkeeper Fraud

- DUAL CONTROL! Separation of duties!
- Never sign blank checks
- Establish dual control for check issuance and account reconciliation tasks, separation of
- Make sure all employees are aware of and adhere to internal controls and financial reporting
- Restrict employee access to accounting systems and online functions; audit periodically
- Implement and follow an approval process for new vendors
- Account statements delivered to person who does not reconcile

**BUSINESS EMAIL COMPROMISE**

This Public Service Announcement (PSA) is an update for the Business E-mail Compromise (BEC) PSA I-012215-PSA posted on [www.ic3.gov](http://www.ic3.gov) and includes new information and updated statistical data as of August 2015.

**DEFINITION**

Business Email Compromise (BEC) is defined as a sophisticated scam targeting businesses working with foreign suppliers and/or businesses that regularly perform wire transfer payments. The scam is carried out by compromising legitimate business e-mail accounts through social engineering or computer intrusion techniques to conduct unauthorized transfers of funds.<sup>1</sup>

# BEC: El Paso, TX

- This scheme is the best example to date of how fast and effectively schemes evolve today
- El Paso had a large, publicized, ongoing streetcar project
- At the last second, the payment information to their vendor was changed
- Officials confirmed it began with a phishing attack
- \$3,200,000. Recovered \$292,000 of \$300,000 and almost \$1,600,000 of \$2,900,000, but this is unusual!

# Neshoba County, MS

- Conspiracy amongst Bookkeeper, Purchasing Clerk, and Payroll Clerk
- \$13,000,000
- Entered into a conspiracy to approve and cover overtime payments to each other
- Scheme was carried out over 6 years
- \$4,333,333 per conspirator over the life of the scheme and \$722,222 per conspirator per year?

# Placentia, CA

- A Deputy Chief in the City Treasurer's Office stole \$5,160,000.
- Hid thefts by altering ledgers
- Was caught wiring funds to a Las Vegas casino
- A city council member, when blamed by citizens and insiders for failing to catch the scheme "threw a fit" in city hall and later in a council meeting, complaining loudly that Bank of America, 2 audits, and the entire city staff failed to identify the scheme and put a stop to it
- Established procedures for release of wires were not followed

## Your Firewall Against Fraud

What we do:

- A comprehensive program provided by fraud experts to prevent fraud
- **Education:** We conduct a 2-hour fraud prevention and awareness seminar for employees. The seminar “deputizes” your employees to assist leaders in fraud recognition and prevention. This kind of training is now required in some areas
- **Risk Analysis:** We send questionnaires to key leaders to learn ahead of time what questions they have, what they see as areas in need of attention, and what procedures are currently being followed. We then visit on-site and document what is actually taking place in daily operations

What we do

- **Report/Strategic Plan:** We provide a professional quality comprehensive report documenting our review and our recommendations for strengthening client operations. We meet with stakeholders to obtain feedback and explain suggestions.
- **Implementation:** We remain available, both via phone consultation and on-site to assist with implementation of our recommendations. We will assist with creating new policies and procedures as needed.
